

# Hotel Door Lock System

High-tech. Modern. Competitive.

---

# DUSAW

**We're on a mission to provide hospitality businesses with a commercial-grade lock system and unparalleled customer service – all at competitive pricing.**

## Powerful System

Dusaw's advanced lock system makes hotel security effortless. Our lightweight software is user-friendly and integrates seamlessly with our premium, long-lasting lock hardware.

- ✔ **User-friendly, cloud-based software**  
Easily manage access from anywhere with an intuitive interface.
- ✔ **Modern locks that retrofit to your doors**  
Upgrade your security—our locks fit most existing door configurations.
- ✔ **Free regular software updates**  
Stay protected with the latest security features and enhancements.

## Personal Service

Our US-based team is always available to offer you guidance, ensuring a smooth experience with no frustrating hold times or unhelpful responses—just solutions from real experts.

- ✔ **Setup walkthroughs**  
Our team will guide you through setup with step-by-step instructions.
- ✔ **US-based IT experts for support**  
No outsourced call centers—just knowledgeable pros ready to assist.
- ✔ **Competitive pricing + no hidden fees**  
Get premium security solutions without unexpected costs.

## Reliable, Cloud-Based System with Backup Mobile App

Our cloud-based system stores up to six months' worth of opening records, providing reliable, standard functionality. Primarily designed for computer use, it also offers a mobile app as a backup in case of an outage or computer failure.

# Dusaw's remote locks include 4 points of access.

Dusaw locks are designed with multiple access types, giving you security and flexibility. Allow guests a few access options, like both cards or passcodes, or limit access to just one; **you're in control.**

#### **RFID Card Access**

Guests enter with a tap

#### **Numeric Passcode**

Change codes anytime

#### **Mobile Access**

Modern & fully remote

#### **Mechanical Key**

For safety measures

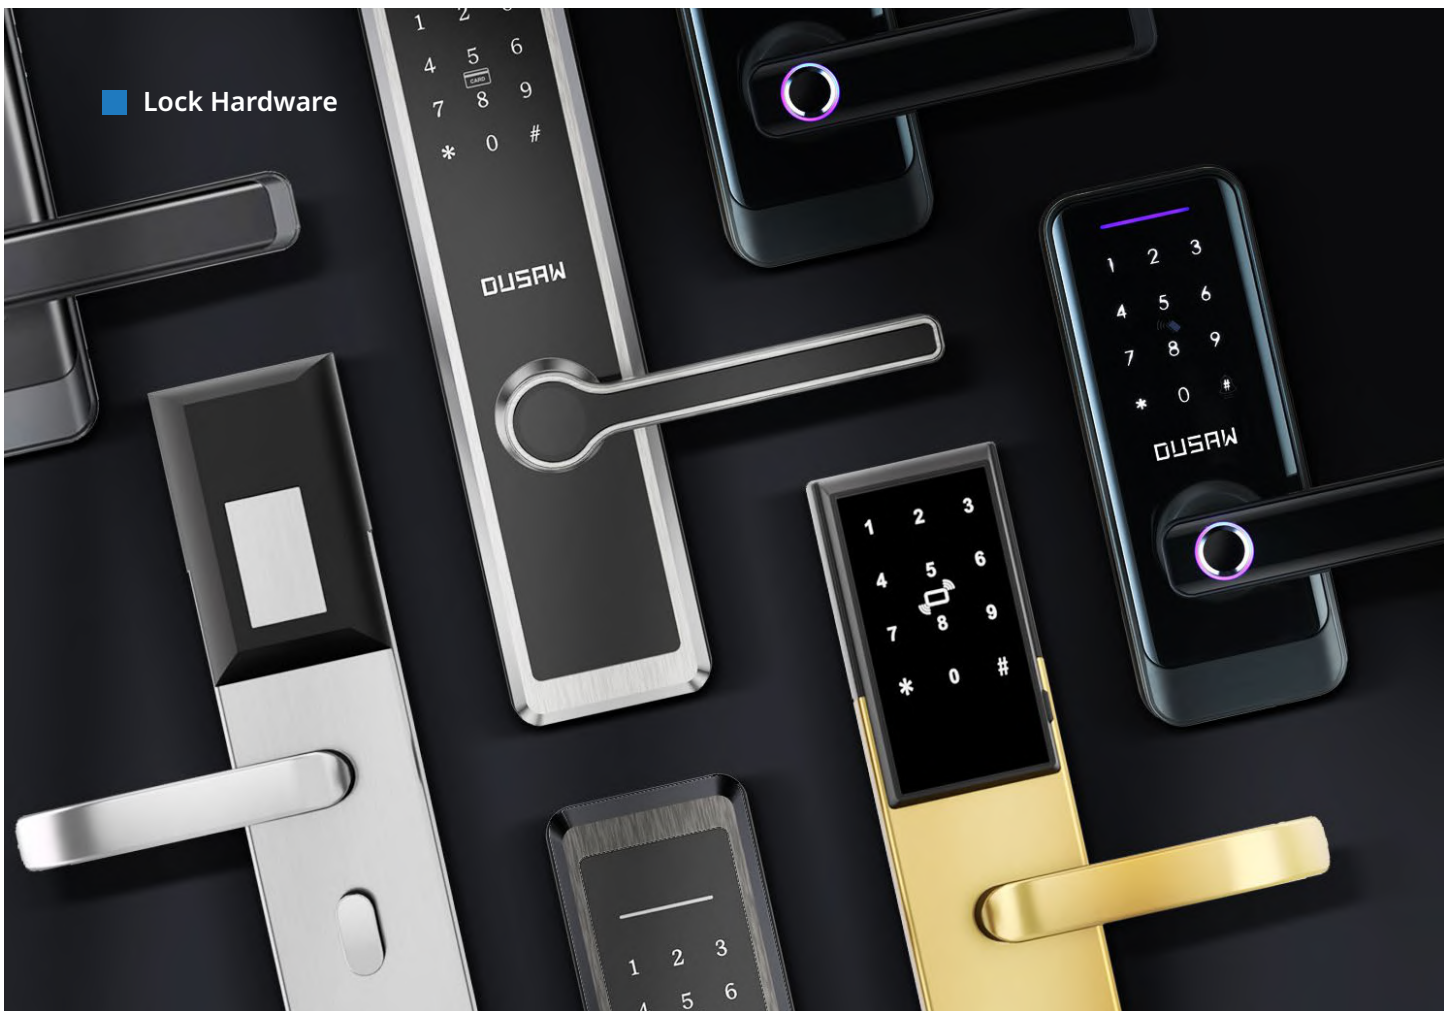

**Request a lock  
demo to learn  
more.**

Ask about purchasing a test lock or request a live demo to see how our system works in real time.

# Well-made. Good-looking.

A seamless security system improves guest happiness. Beautiful hardware is just the cherry on top. Designed for smooth operation and maximum strength, each heavy-duty lock is built for longevity & commercial use, featuring a solid, reinforced construction that resists wear and tampering.

## A wide range of locks for every property.

We offer a diverse range of lock solutions designed to meet the needs of any property, regardless of the number or type of doors you have.

- ✓ Mortise
- ✓ Single Latch
- ✓ Deadbolt
- ✓ Narrow Style
- ✓ Glass Doors
- ✓ Specialty Locks

## Designed to withstand the great outdoors.

Our weatherproof locks are made with super-durable metals and rubber gaskets for exterior doors and tougher environments like oceanside resorts.

## Long-lasting battery.

The battery in each lock lasts for 18 months on average and is designed for easy replacement access.

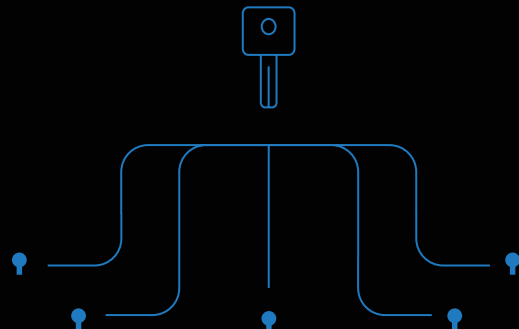

## Retrofits to your existing hardware holes.

Our wide range of lock sizes and styles fit existing hardware holes with little to no drilling required. Call today to explore options based on your measurements.

## Simplify access with master keying.

Managing multiple locks shouldn't be a hassle. Our keyed-alike and master key systems provide streamlined access, so staff can unlock many rooms with a single key.

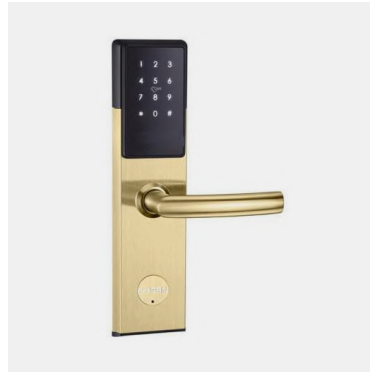

# The Hotel Door Lock Collection

Our most popular hotel door locks include all access options:  
RFID Card, Ekey/Phone App, Passcode, and Mechanical Key.

Software

## Our cloud-based security software is included with your lock purchase.

Dusaw's cutting-edge remote management software **is included with your lock order**, offering seamless automated updates.

- ✓ **Integrates with most PMS systems**

Our IT experts are always on hand to help you integrate with our open API.

- ✓ **Lightweight cloud-based program**

No server required: Our remote software is easy to use and implement.

- ✓ **Always up-to-date software**

to keep up with the latest integrations and maximize features. The updates are seamless and effortless!

## One lock system. Infinite access control levels.

Customizable room access levels meets the needs of every visitor and employee – while keeping your hotel secure. All levels can be managed using any points of access.

### Hotel Guests

receive secure, time-limited access to their designated rooms.

### Upper Management

can have full access to all areas, including administrative and restricted zones.

### Staff Members & Employees

can be granted specific access based on roles, like housekeeping or maintenance.

### Families & Groups

can receive a single card configured for multiple rooms and spaces.

### Short-Term Visitors

such as maintenance workers can receive one-time access for controlled entry.

**Monitor** access activities of employees and temporary workers

**Restrict** guests to a specific floor to enhance security and convenience

**Streamline** guest access by grouping rooms with designated common areas

# Remote control.

Assign room access to guests from anywhere using your phone or any device.

## Multi-device login

Access the system from multiple computers at once.

## Seamless encoding

Each receptionist gets a sleek, small encoder for quick keycard creation.

## Staff management

Track staff permissions and monitor their activity.

## Quick passcode setup

Pre-generate access codes for a seamless check-in.

## No need to be on site

Ideal for large properties and those without full-time staff.

## Track lock health

Monitor battery life and view detailed lock opening records.

## Generate, access, and store with the hub.

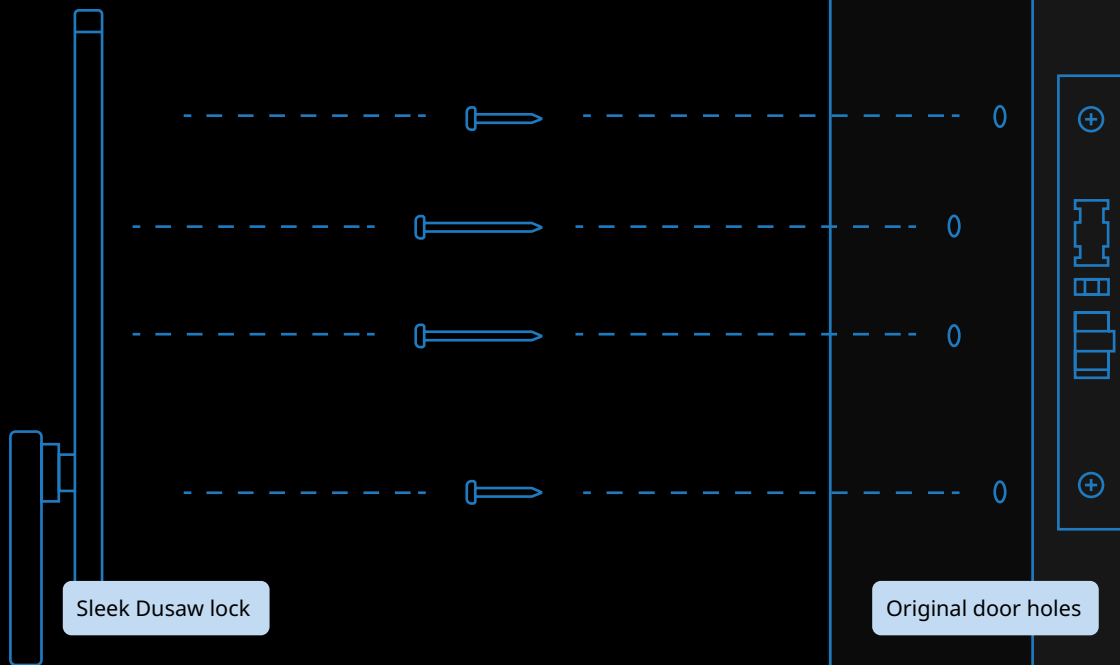

Generate all the custom codes you need, view access data in real time, and monitor battery life remotely. Store up to 6 months of access records in the cloud.

## Internet's down? You're still secure.

Even if you lose power or WiFi, **Dusaw's system is still fully operational and 100% secure.** Use encoder to generate cards or fobs, revoke access as needed, and access all internet-enabled features using smartphone access.

## ■ The Dusaw Process

# Dusaw retrofits to your existing hardware holes.

No need to replace your doors or invest in extensive reconstruction! **Save time and money** with our wide range of lock sizes and styles that fit existing hardware holes with little to no drilling required.

### 1 No-commitment

We'll recommend a lock that can retrofit to the existing holes in your door.

### 2 Sample lock order

Test out a single lock first to ensure the lock fits perfectly on your existing door.

### 3 Easy installation

Most customers opt to handle installation internally with our team just a call away for guidance.

**White-glove  
installation available**

Customers can opt for Dusaw's professional installers to handle the assembly for a seamless experience.

# Get full support when you onboard with Dusaw.

Enjoy live onboarding with our dedicated IT specialists, who will join you via video call and help you optimize Dusaw's software to meet your hotel's unique needs. This personalized support ensures a smooth, seamless transition to their new system, making it easy and stress-free.

## Quick pairing process

Pairing locks via Bluetooth takes under a minute per lock.

## Team trainings

Get comprehensive training as many times as needed.

## Free support forever

Got a question later down the line? We'll always be there for you.

## Seamless Keycard Encoding

Unlock a smooth, modern check-in experience with Dusaw's sleek, high-tech keycard encoders.

### Encode in seconds

Tap, program, and go—our intuitive encoders sync with your system for instant keycard activation.

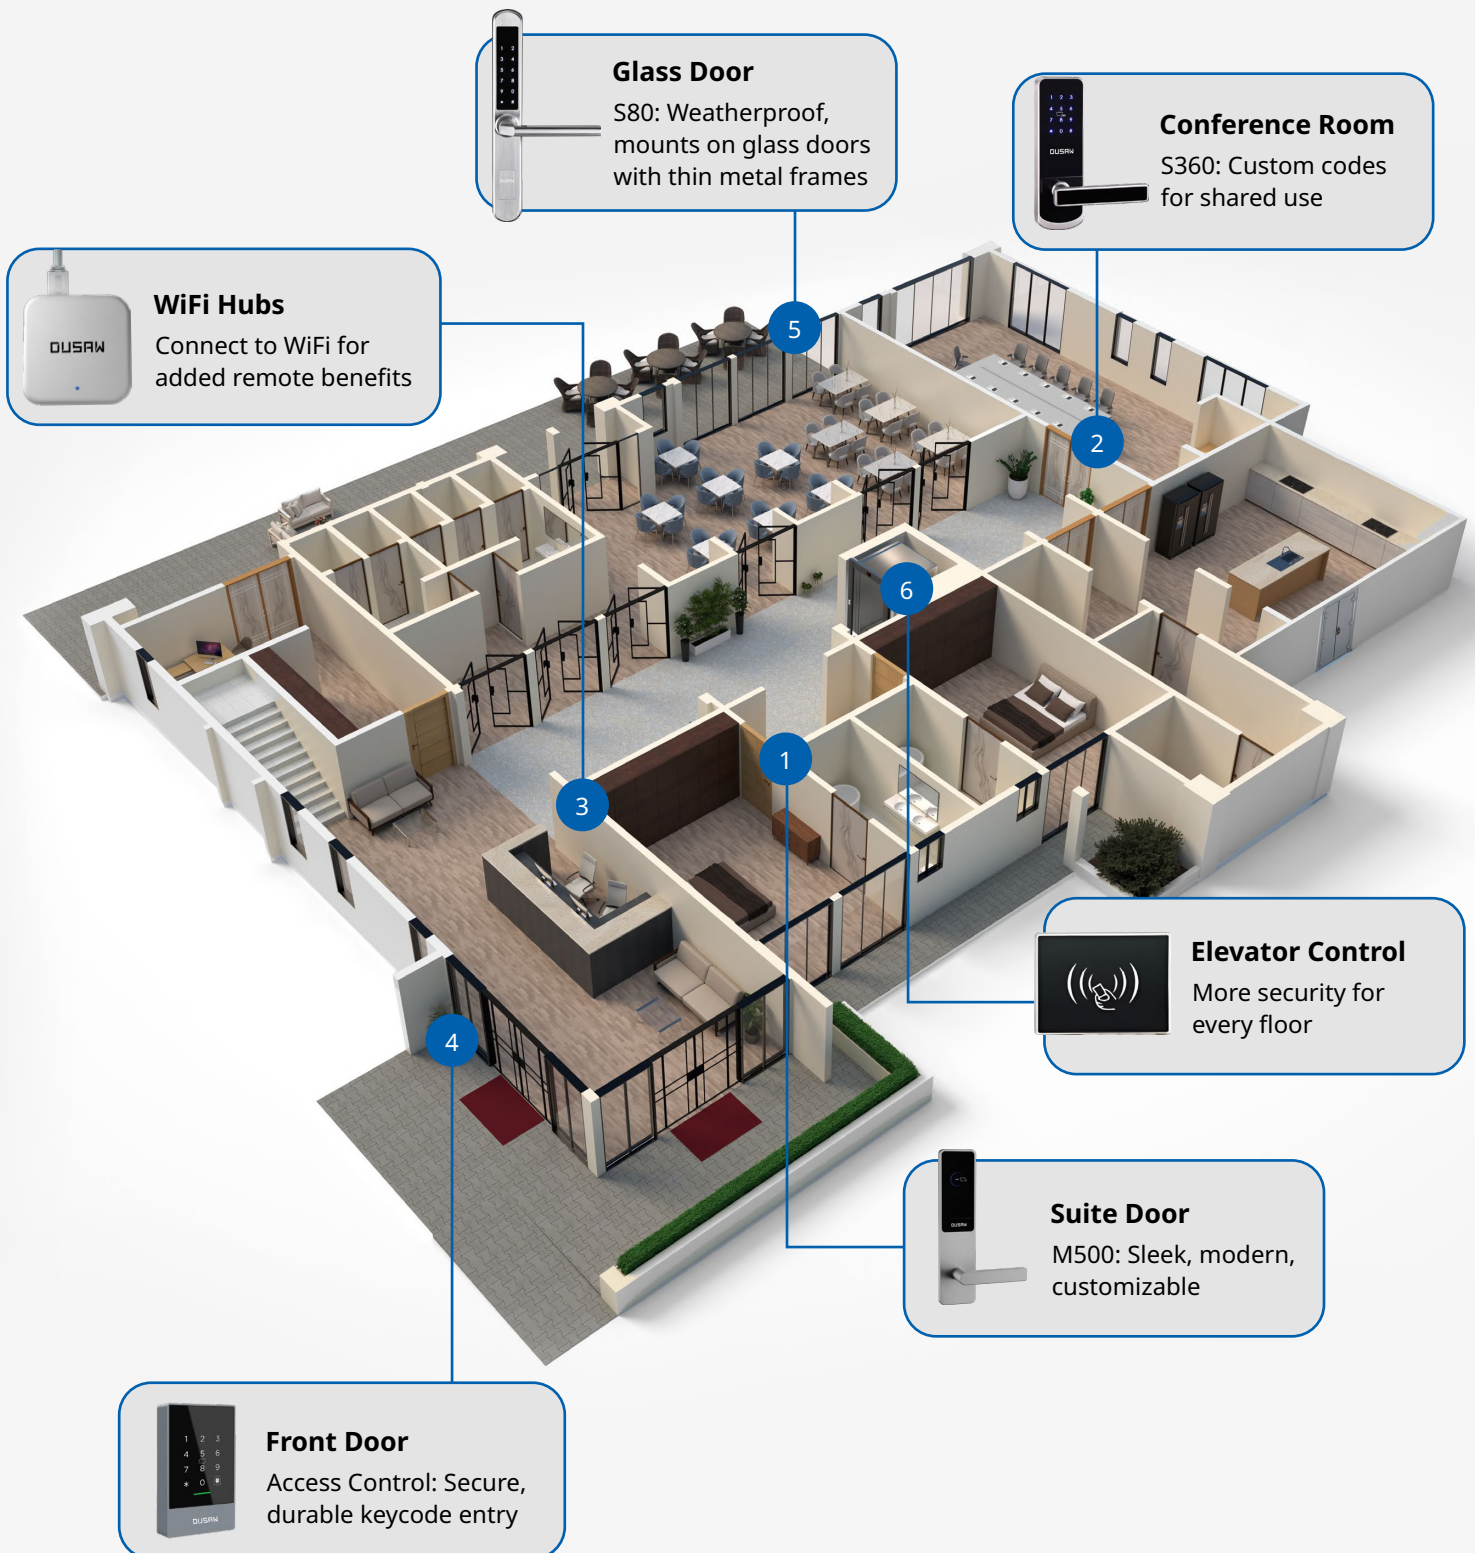

### Manage with ease

Grant, update, or revoke access effortlessly through your property management software.

### Seamless experience

Guests simply tap to unlock, enjoying a streamlined, secure stay.

# Commercial locks for every corner of your hotel and grounds.

# Glen Tavern Inn makes security easier for everyone with Dusaw

## Overview

A historic 1911 hotel, Glen Tavern Inn needed a modern access control solution to replace their outdated mag stripe locks.

## Challenges

- Previous lock provider discontinued manufacturing
- With no 24-hour staff, remote-generating access codes was critical
- Wanted a U.S.-based company with responsive support

## With Dusaw:

**Dual Access Options.** Guests could use both passcodes and key cards.

**Remote Code Generation.** Enabled staff to pre-generate access codes for guests, allowing them to take time off during the holidays.

**Reliable Customer Support.** Quick response time and a U.S.-based support team ensured smooth implementation.

**Seamless Installation.** Despite minor modifications, the maintenance team installed the locks within a week.

We were looking for something with great support and premium quality materials. Dusaw delivered on all counts!

**Matthew Cohen**  
Glen Tavern Inn

# Devil's Head Resort seamlessly handles scattered rooms & condos

## Overview

Devil's Head, a 253-unit ski and golf destination, needed to replace a failing solution from another provider.

## Challenges

- Their original locks would frequently deactivate during a guest's stay
- Their previous provider was unresponsive
- With rooms spread across multiple buildings, a remote solution was critical

## With Dusaw:

**Superior Reliability.** Dusaw locks functioned flawlessly during trial.

**Remote Access.** Guests can now receive entry codes on their phones, aligning with the resort's self-service system.

**Seamless Installation & Cost Savings.** The maintenance team handled the install in-house, saving half the cost compared to competitors.

**Exceptional Support.** Dusaw worked closely with the resort's software engineers to ensure a smooth integration.

**From zero customer service with our previous provider to 100% support with Dusaw. The locks are rock-solid and reliable.**
